

Stop the Spread of COVID-19 in the Workplace

PHYSICAL DISTANCE 2 METRES

- Including on breaks and in break rooms, and common workspaces.
- Stagger breaks to avoid crowding.

DON'T SHARE FOOD

- Do not share any food, including community candy bowls/snacks.

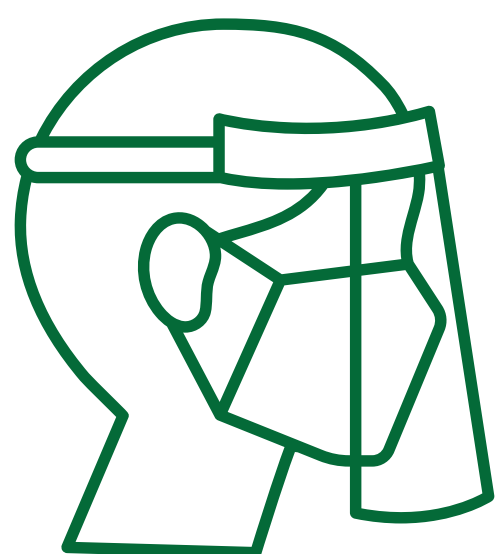

VEHICLE TRANSFERS/ TRAVELLING

- Encourage ventilation by opening windows.
- Wear a mask and keep maximum distance between vehicle occupants.

SANITIZE

- Sanitize shared equipment before and after use.
- Sanitize hands before and after contact with others and with high touch areas and items.

USE PROPER EYE PROTECTION

- Face shield, safety glasses or eye protection that enclose the eye area.

PPE TRAINING

- Train new and existing employees on the proper use of masks and to change gloves after each use.

MAKE SURE EMPLOYEES CAN LIST POTENTIAL CONTACTS

- Employees should keep a log of who they worked with each shift.
- Managers should create a staff cohort and keep a list of staff attendance and staff assignments.

REMEMBER: STAY HOME IF YOU ARE SICK.

Employers and employees should review the workplace tool kit at saskatchewan.ca/COVID19-workplace-toolkit.
