

CSASK Practice Guidelines: Billing Practices

CSASK collaborated with a working group of Audiology and Speech-Language Pathology registrants who deliver fee-based services. These guidelines provide information, direction, guidance, and recommendations regarding ethical, transparent, and professional billing practices. Registrants are encouraged to also reference the CSASK code of ethics. Common examples are provided but do not represent every situation or address all ethical questions that may arise during professional practice, therefore, CSASK staff are available to discuss unique situations with registrants by email, phone or videoconference. These Billing Practice Guidelines were approved by the CSASK Council on January 25th, 2023.
