

This application pathway is for graduates from a Canadian university program who are more than three years post-graduation (i.e. not a recent graduate) and are not currently registered as an audiologist or speech-language pathologist in a regulated Canadian jurisdiction.

Applicants following this pathway may be approved to practice under a provisional licence while they meet the entry-to-practice requirements (period of supervised practice and examination). The CSASK provisional registration is intended as a transitional status to allow a person to obtain the necessary requirements for registration in the practising category and expires the earliest of:

- a) two years; or
- b) upon a failure for the third time to achieve a passing score on the CETP exam.
